ABOUT ME

I am a developer who works on making software systems that can grow and make a difference. I have worked on both full-stack development and applied AI. I like using my strong backend skills and modern web technologies to solve real-world problems. I'm always looking for new ways to use intelligent systems in real-life situations.

EDUCATION

B.Tech Computer Science and Engineering

Keshav Memorial Institute Of Technology

CGPA: 8.5/10.0

Nov 2022 - Feb 2026

Intermediate Education

Keshav Smarak Junior College

Marks: 977/1000

2020 - 2022

SKILLS

Programming Languages: Java, JavaScript, Typescript

Libraries and Frameworks: Fast API, Langchain, React.js, Next.js, Node.js, MongoDB, Tailwind CSS, Express.js, Flask

Tools & Cloud Technologies: Git, GitHub, AWS (S3, EC2), Docker, Postman, Gemini, ChatGPT, Vercel, Netlify, Render

INTERNSHIPS

AI Developer Intern | aidenai.com [↗](#)

Sept 2025 - Present

Developing AI-powered full-stack applications by integrating LLM-based workflows into production systems. Built AI agents and tool-driven architectures for task automation, and leveraged vector databases to implement semantic search and retrieval-augmented generation (RAG), while contributing across backend APIs and frontend integration.

Full Stack Developer Intern | scorely.in [↗](#)

Apr 2025 - Jun 2025

Contributed to multiple Next.js projects during the internship, building scalable front-end features using Next.js with TypeScript and writing backend logic with API routes and tRPC. I also deployed applications on AWS.

React Developer Intern | elsopro.com [↗](#)

Dec 2024 - Feb 2025

Developed and maintained a website **elsopro.com** using React.js during an internship. Collaborated with a team of developers to implement new features and improve existing ones. Gained hands-on experience in front-end development while working remotely for Blue Digital Media Pvt. Ltd.

PROJECTS

WealthWise | *React.js, MongoDB, Node.js, Express.js, Tailwind CSS, CrewAI* | [WealthWise](#) [↗](#)

Feb 2025

- Developed an AI-powered responsive web application utilising custom algorithms and AI Agents for personalised stock, mutual fund, and fixed deposit recommendations.
- Designed a RAG-based chatbot providing users with real-time financial insights and learning modules, including video tutorials to enhance financial literacy.
- Built an expense tracker to help users optimise savings and reduce unnecessary expenditures.

Vercel Clone | *AWS, S3, Redis, Typescript, Node.js, React.js(Vite), Express.js, Tailwind CSS* | [GitHub](#) [↗](#)

May 2025

- Developed a Vercel-like deployment platform with a user-friendly UI for seamless project uploads via Git repos.
- Designed a deployment pipeline where projects are stored in AWS S3, built using dynamic environment detection, and served via cloud storage.
- Implemented automatic CI/CD with Redis-backed queues for real-time build tracking and deployment updates.

Site Ease | *HTML, CSS, JavaScript, Tailwind CSS* | [Download Site Ease](#) [↗](#)

Nov 2024

- Built a Chrome extension to assist people with colour blindness and dyslexia, ensuring seamless accessibility to all sites.
- Designed an accessible UI with colourblind-friendly toggle controls that provide visual feedback appropriate for each impairment type.
- Added dyslexia-friendly features, including special fonts, better spacing, and improved contrast.
- Used Chrome Extension Storage API to save preferences and auto-apply accessibility settings on browser reopen.

ACHIEVEMENTS

Won the 1st place at **Techolution Hackathon 2025.V1** conducted by Techolution under the **AI** domain by building the AI-Based-WireFrame-Generator.

Runner-up at **EPITOME25** conducted by Gokaraju Rangaraju Institute of Engineering and Technology under the **Fintech** domain.

Runner-up at **Code4AI** conducted by **Rajiv Gandhi Institute of Technology** under the **AI** domain.

Won the 2nd place at **Zignasa2k23** conducted by **Brain O Vision** under the **Smart Education** domain.

CERTIFICATIONS

A certificate from **Linkedin Learning** and **Microsoft** for completing the **Build Your Generative AI Productivity Skills** with Microsoft and LinkedIn learning path.

A certificate from **Postman** on **Postman API Fundamentals Student Expert**.

A certificate from **Lets Upgrade** on completing the **Git and Github Bootcamp**.
